Professional Summary

Economics student at Purdue University's Daniels School of Business with hands-on experience in social media marketing, data analysis, and youth program leadership. Skilled in Excel, Google Sheets, and digital marketing analytics. Pursuing Summer 2027 internship opportunities in business analytics or consulting.

Education

Purdue University, Daniels School of Business

B.S., Economics May 2029

Relevant Coursework: Microeconomics, Macroeconomics, Statistics, Econometrics

Experience

Camp Counselor June 2026 – August 2026

YMCA

- Supervised a group of 15+ campers within a 60+ person program, overseeing daily safety, schedules, and transitions.
- Designed and led weekly science and arts activities, delivering hands-on, age-appropriate lessons.
- Coordinated with fellow counselors and program staff to plan and adapt activities under a fast-paced schedule.

Barista November 2025 – March 2026

Centennial Cafe, Purdue University

- Processed 100+ orders per shift during peak campus hours while maintaining speed and accuracy.
- Assisted with inventory management and restocking to support smooth daily operations.

Business Team Member August 2025 – December 2025

Purdue Electric Racing

- Reached out to local and regional businesses by email to request funding and in-kind support for the team's race car build.
- Researched and compiled scholarship and grant opportunities to help fund the build.
- Managed the team's social media presence, posting updates on the build and outreach efforts.

Marketing Intern Summer 2024

Droom Droom, Seattle, WA

- Managed day-to-day engagement on the brand's X (Twitter) account, growing visibility within crypto-focused communities.
- Researched and applied social media strategies, including hashtag selection, posting cadence, and community replies.
- Analyzed digital marketing performance data to inform content decisions and online community-building efforts.

Teaching Assistant Summer 2021 – Summer 2024

Stepping Stones, Sammamish, WA

- Designed and taught dance lessons for groups of 15+ students, fostering creativity, confidence, and structure.

Projects

Intro Microeconomics Policy Brief: Minimum Wage & Employment Spring 2025

- Modeled short-run and long-run employment effects using supply-demand graphs and elasticity analysis, including deadweight loss visualizations.
- Wrote a two-page memo for a non-technical audience with an executive summary and actionable policy takeaways.

Personal Budget & Savings Forecast Model 2025

- Built a spreadsheet model with categorized budgeting, conditional formatting, goal tracking, and sensitivity tables.
- Designed a one-page dashboard with charts to monitor burn rate and progress toward savings goals.

Activities & Leadership

Varsity Badminton Team 2021 – 2025

Four-year varsity athlete

- Balanced a demanding training and competition schedule with AP coursework; mentored underclassmen during practices.

DECA 2023 – 2025

Competitor, Business case and role-play events

- Structured recommendations using SWOT and market-sizing frameworks; built concise decks and delivered timed presentations to judges.

Skills

Analytics & Reporting: Python, R, Excel (PivotTables, XLOOKUP, charts), Google Sheets (formulas, pivot tables)

Marketing & Growth: X/Twitter Analytics, Social Media Strategy, Content Calendar Planning, KPI Tracking

Design & Presentations: Canva (brand kits, decks), PowerPoint

Collaboration: Google Workspace (Docs, Slides, Drive), Microsoft Office
